Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 8 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Niwa et al.

Niwa et al. disclose an apparatus for releasing a flash device having “a flash unit [9]; a rotation device [1]; a clipping device [8] for locking said flash unit; and a sensor [20/27] for activating said rotation device [col 5, lns 33-38, col 6, lns 1-4 and col 9, lns 40-50].”

Allowable Subject Matter

Claims 10 and 11 are allowed.

Claims 2-7 and 9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art does not disclose or suggest "an axle wheel portion which is connected to said clipping device" in combination with the remaining claim elements as set forth in claims 2-7 and 9.

The prior art does not disclose or suggest "an axle wheel portion having a clip" in combination with the remaining claim elements as set forth in claims 10 and 11.
